- Comercial sites coating
- Waterproof applications
- Roof coatings
- Bridge coatings

RUNNER hydraulic airless texture & paint sprayers, cover a wide range of coating materials, ideal for medium to large contractors that are looking to get the most out of their airless sprayer. Proven hydraulic operation & VEZOS hard chromed slow stroke pump, combined with cost effective accessories, is the best choice to get the job done. RUNNER sprayers are equipped with VEZOS direct immerse hydraulic pumps, specially designed for heavy & thick materials, no cogging due to large sized fluid passages, enabling the pump to work under high pressure for the roughest jobs.

- **Unique Features**

- 260 - 330 bar working pressure
- Hydraulic operation
- Hard chromed pump
- Built-in filter
- Convertible power kits
- T.C.S. Cooling system
- Adjustable pressure
- Industrial 6 ply tires
- Large hydraulic oil tank
- Slow stroke pump
- Upright & Compact design

Industry's first adaptable line striping kit. Simple, clever & cost efficient! Transform your airless paint sprayer into a line striper, in seconds, without the cost of an additional sprayer.

All conversions & transformation take seconds, don't need any tools and most important save time & money !
